(FAO, IFAD and WFP. 2015. The State of Food Insecurity in the World 2015.Meeting the 2015 international hunger targets: taking stock of uneven progress. Rome, FAO.)

Q1. Which of the following can be most suitable to sentence (A).

① Greater reliance on imported foods has been associated with increased consumption of cheaper and more readily available high calorie/low-nutritional-value foods.

② Greater competition from abroad may trigger improvements in productivity through greater investment, R&D, technology spillover.

③ For net food-importing countries, food prices typically decrease when border protection is reduced.

④ A greater variety of available foods may promote more balanced diets and accommodate different preferences and tastes.

Q2. Which of the following can be most suitable to sentence (B).

① Prioritization of commodity exports can divert land and resources from traditional indigenous foods that are often superior from a nutrition point of view.

② Net food-importing countries may be vulnerable to changes in trade policy by exporters, such as export bans.

③ Employment and incomes in sensitive, import-competing sectors may decline.

④ Imports reduce the seasonal effect on food availability and consumer prices.

Q3. Which of the following can be most suitable word in the blank (C) (D) (E) .

: (C) : (D) : (E)

① loss of jobs and reduced incomes

② labour and land productivity increases

③ low productivity and lack of competitiveness

④ political instability
